SESCO'S PROJECT QUALIFICATIONS

SESCO is an Acer America Authorized Partner. Amongst other important SESCO partnerships are: Tripplite, CISCO, HP, Dell, etc. SESCO possesses ample experience in the public sector in Puerto Rico.

Important Projects

Business Name / Year	Description	Amount
Departamento de Educación	**Design & Implementation of Technology Equipment for 21th Century Schools.** - Installation of over 2500 Computers, Monitors & UPS in 25 Designated Schools -Staging of all equipment for image loading provided by the DE and Property Labeling of System - Installation of 100 Smart Boards & Printers	4.500,000.00
Departamento de Educación	**Cisco IPVS, Media Server, VSOM & Cameras** Installation & Configuration - 1,680 Cameras islandwide - 8 Media Servers - 2000 Licenses for 250 AXIS Cameras per Media Server - Video Storage Capacity for up to 90 days - Video Surveillance Manager Software - Supporting Cisco Networking Infrastructure	$ 3,200,000.00
Municipio de Cataño	**Renovation of the Municipality Technology Infrastructure** - Implementation of a Wide Area Network (WAN) interconnecting 14 regional offices with Central Site through Cisco Wireless Bridges and Redundant Routers. - Restructured all Wiring Closets and Networking Racks in preparation for new 10/100/1000 PoE equipment. This included: Fiber Optic Optimization and Certification, Fusion Splicing, Fiber Optic Re-Terminations and Cat5e Re-Patching. - Installation and Certification of over 1000 Horizontal Drops. - Implementation of IP Telephony for over 350 users - Installation and configuration of 200 PC's, 10 Windows 2003 Server, NAS, BackUp & Antivirus Solution, and Redundant Fibre Channel SAN. - Designed and Implemented a Intrusion Detection Solution with Firewalls at each site. - Developed a Disaster Recovery Plan w/ Offsite Replication for Business Continuity. - Maintenance Contract for continuous monitroring and updating of system.	$ 2,750,000.00
ASSMCA	**Cisco Call Manager Express 7.i Installation & Configuration for Remote Sites** - Installation of Cisco Call Manager 6,0 , Cisco Unity 5.0 & Cisco Network Products - Cisco Call Manager 7.1 Upgrade, Cisco Contact Center & Call Recording Configuration - Implementation of IP Telephony for over 1000 users - Restructured all wiring closets and networking racks in preparation for new Cisco equipment - Installed racks, patch panels and configured Cisco switches - Installation and certification of 600 drops - Installation and configuration of 150 workstations - Installation and configuration of Storage Area Network (SAN) - Cisco Outdoor Wireless Network Installation & Configuration - Network Maintenance Contract	$ 1,500,000.00
Administración de Familias y Niños	**Staging, Image Loading and Deployment of 1,113 Dell Optiplex PC's**	$ 951,615.00
Departamento de Educación	**Provide and install cabling infrastructure for 63 CITeD - Centros de Innovaciones Tecnologicas para la Docencia** - Installation and certification of 17 drops per site for a total of 1071 horizontal drops -Staging of all equipment for image loading provided by the DE and Property Labeling System - Delivery and certification of 63 Windows 2003 Servers, 630 PC's with UPS, 126 Printers and 63 10/100/1000 switches	$ 945,000.00
Departamento de Justicia	**Storage Area Network Installation and Implementation Services** Installation & Configuration - Storage Area Network hardware and software **Delivery and Technical Services for UPS power systems**	$ 873,000.00

SESCO'S PROJECT QUALIFICATIONS

Business Name / Year	Description	Amount
Autoridad de Acueductos y Alcantarillados	Staging, Image Loading and Deployment of 971 Dell Optiplex PC's	$ 830,000.00
Departamento de Hacienda	Staging, Image Loading and Deployment of 600 Dell Optiplex PC's and 100 Dell Laptops Islandwide	$ 752,000.00
Administracion de Rehabilitacion Vocacional	Staging, Image Loading and Deployment of 900 Dell Optiplex PC's and 100 Dell Laptops Islandwide	$ 850,000.00
Universidad de Puerto Rico - Recinto de Bayamón	**Renovation of the Campus Technology Infrastructure** - Installation and Configuration of Communication Equipment. - Installation of Fiber Optic Backbone. - Designed scalable network infrastructure to comply with customer's requirements. - Design Wiring Closets and Networking Racks in preparation for the implementation of the new CISCO equipment. This included: Fiber Optic Optimization and Certification, Fusion Slicing, Fiber Optic Re- termination and Cat6 Wiring. - Delivered and Installed CISCO networking equipment including: (1) Catalyst 6500's, (3) Cisco WS-C3750-24TS-E, (1) Cisco WS-C3750G-12S-E and (9) Cisco WS-C3750-48TS-E.	$ 738,515.00
Cuerpo de Bomberos de Puerto Rico	**Provide and install network infrastructure** - Installation, configuration and implementation of CISCO network equipment - Installation and Configuration of VoIP Equipment. - Designed scalable network infrastructure to comply with customer's requirements. - Design Wiring Closets and Networking Racks in preparation for the implementation of the new CISCO equipment.	$ 335,000.00
ASSMCA	Staging, Image Loading and Deployment of 149 Dell Optiplex PC's	$ 245,000.00
Universidad de Puerto Rico - Recinto de Río Piedras	**Cisco IPVS, Media Server, VSOM & Cameras** Installation & Configuration - 60 Cameras through Rio Piedras Campus - 1 Media Server - Licensing for Video Cameras for Media Server - Video Storage Capacity for up to 90 days - Video Surveillance Manager Software - Supporting Cisco Networking Infrastructure	$ 235,951.00
ACAA	Staging, Image Loading and Deployment of 247 Dell Optiplex PC's	$ 228,000.00
Administración de Familias y Niños	Staging, Image Loading and Deployment of 150 Dell Optiplex PC's	$ 225,000.00
Junta de Retiro de Maestros	**Storage Area Network Installation and Implementation Services** Installation & Configuration - Storage Area Network hardware and software	$ 200,000.00
Guardia Nacional de Puerto Rico	**Computer, Printers and Battery Backup Systems Sales and Delivery Services** - Delivery of UPS Backup Systems	$ 141,000.00
Fideicomiso Institucional de Guardia Nacional de Puerto Rico	**Provide and install cabling infrastructure** - Installation and certification of CAT6 drops per site - Installation, configuration and implementation of CISCO network equipment - Delivery Network Servers, PC's with UPS, Printers - Installation and Configuration of Communication Equipment. - Installation of Fiber Optic Backbone. - Designed scalable network infrastructure to comply with customer's requirements. - Design Wiring Closets and Networking Racks in preparation for the implementation of the new CISCO equipment.	$ 134,000.00
Policía de Puerto Rico	**30kVA Battery Backup System Installation and Implementation Services** - Delivery of UPS Backup Systems	$ 118,000.00
